As per the terms of RFP, pre-bid meeting was held on 22 May 2023. In the regard, the changes in currently uploaded RFP document are tabulated below.

Tender ID: 2023_GNIDA_802128_1

Sl. No.	Page No.	Clause No.	Original Clause in the RFP	Clause after Corrigendum / Addendum
1.	18 & 21	5 & 5.1 (2)	Drain waste and street sweepings to be collected, transported and disposed by Concessionaire as per CPHEEO Norms.	Drain waste and street sweepings to be collected and transported by Concessionaire as per CPHEEO Norms.
2.	19	5	The vehicles would need to transport waste collected to the Processing Site in Lakhnawali. In future, some or all waste maybe sent to Astauli.	The vehicles would need to transport waste collected to the Processing Site in Lakhnawali. In future, some or all waste maybe sent to Astauli. Distance between both the sites is approximately 23 Kms.
3.	31	5.1.5	Concessionaire is required to setup a Control room in GNIDA for monitoring the operations digitally and use Digital tools like Digital Household Identification System, GPS system, Digital feedback system, digital payment system, etc. This Control room needs to have minimum team of 6 people (3 per shift) from Concessionaire's side. GNIDA will also depute one person from Project monitoring unit to oversee	Concessionaire is required to setup a Control room in GNIDA office for monitoring the operations digitally and use Digital tools like Digital Household Identification system, GPS system, Digital feedback system, digital payment system, etc. GNIDA will provide the room space. This Control room needs to have minimum team of 4 people (2 per shift) from Concessionaire's side. GNIDA will also depute one

			operations of the Control room.	person from Project monitoring unit to oversee operations of the Control room.
4.	30	5.1.2 (xxv), 2.	User charges from Waste generators (to be deposited in an Escrow Account) *	User charges from Waste generators
5.	36	5.2.2	The rate quoted by Bidder will be applicable for the first year of operation from the date of commencement of Collection and Transportation from the 100% area in scope. The tipping fee shall be increased every year @ 3% each year till the existence of the contract and satisfactory performance of the successful bidder.	The rate quoted by Bidder will be applicable for the first year of operation from the date of commencement of Collection and Transportation from the 100% area in scope. The tipping fee shall be increased every year @ 5% each year till the existence of the contract and satisfactory performance of the successful bidder.
6.	21	5.1 (4)	Secondary Storage of MSW: The bins shall be washed twice a week by deploying required number of bin washing vehicles. However, the waste needs to be picked twice a day from dustbins by Centralised Concessionaire along with collecting door to door waste. The vehicles shall be painted quarterly once as per the colours suggested by the Authority for wet waste, dry waste and street sweeping waste. The washing should be done using treated wastewater from GNIDA STPs. The damaged bins should be replaced in timely manner ensuring only bins which are in good condition are kept, painted clearly indicating the logo of the Authority, type of waste, helpline number etc. If there are any visible holes, gaps or other open spaces in the interior of the bins; those bins should be replaced immediately.	Secondary Storage of MSW: The bins shall be washed twice a week by deploying required number of bin washing vehicles. However, the waste needs to be picked twice a day from dustbins by Centralised Concessionaire along with collecting door to door waste. The vehicles shall be painted half-yearly once as per the colours suggested by the Authority for wet waste, dry waste and street sweeping waste. The washing should be done using treated wastewater from GNIDA STPs. The damaged bins should be replaced in timely manner ensuring only bins which are in good condition are kept, painted clearly indicating the logo of the Authority, type of waste, helpline number etc. If there are any visible holes, gaps or other open spaces in the interior of the bins; those bins should be replaced immediately.
7.	22	5.1 (7)	Transfer Station: Adequate leachate collection, treatment and disposal to be ensured.	Transfer Station: Adequate leachate collection and transportation to SLF to be ensured.
8.	16	4.2.17 (1.)	The type of Contract is based on tipping fee per metric Ton of MSW collected and processed , to be quoted in financial bid after considering all the expenses for development of project along with 10 years of O&M.	The type of Contract is based on tipping fee per metric Ton of MSW collected and transported , to be quoted in financial bid after considering all the expenses for development of project along with 10 years of O&M.
